The perfect
footbath
starts *here.*

AgroChem

NOW FOOTBATH DOSING COMES WITH AN EXTRA DOSE OF CONFIDENCE.

Improve Footbath Accuracy and Reduce Costs

The AgroChem Footbath Dosing System delivers the results you're looking for in a high-quality footbath program.

- **ACCURATE** – Fills bath with correct amount of water and footbath concentrate every time.
- **SAVES MONEY** – Drastically cuts costs with continuous-replenish feature.
- **SAFE** – Reduces employee interaction with chemicals.
- **CONSISTENT** – Automation ensures that footbaths are filled on a routine schedule.
- **CUSTOMIZABLE** – Can accommodate multi-alley footbaths running one or two products in rotation.
- **DURABLE** – Stainless steel construction stands up to punishing conditions.

The AgroChem Footbath Dosing System minimizes human error

Flexible and programmable.

The AgroChem Footbath Dosing System can be easily programmed for use with two different products, each with its own pump, to meet your dairy's unique hoof care needs. Products can be used separately or as part of a rotation program – the choice is yours.

For producers wanting results without heavy metals or formaldehyde:

- HEALMAX® is the revolutionary footbath concentrate that stands alone in its ability to quickly control outbreaks of digital dermatitis
- Patented formula is safer than formaldehyde for humans and animals
- Gets cows back on track fast with visible results beginning in approximately one week
- Remains effective in both hot and cold weather
- Ideal for herds with digital dermatitis issues

For producers looking to cut copper usage:

- DURAHOOF Footbath Concentrate helps reduce copper sulfate usage and lower the cost of your footbath programs
- Penetrating cleaning agents enable copper to work where it's needed most, even in the presence of organic matter
- Ensures proper chemistry for the duration of the footbath
- Promotes hoof hardness
- Allows more successful cow passes with less copper

Easy to use!

Once you've loaded the chemicals, hooked up to the water source, and selected your program, just press the START button on the control panel. The AgroChem Footbath Dosing System does the rest!

"The team loves the ease of the automatic system. It keeps everyone safe and does a great job with improving foot health."

Ben Collopy
Herdsman, Emerlings Dairy

"We were looking for something that was easy to use for everyone on the farm. The Footbath Dosing System does that. Just turn the switch, turn on the water, and you're good to go. We give our cows a footbath daily. Our foot problems have basically gone away. It's a win-win."

Josh Harnick
Green Meadows Dairy
