

PeroxyGuard

**HYDROGEN PEROXIDE
“FIZZING” ACTION
PHYSICALLY CLEANS
THE TEATS**

- *Hydrogen peroxide is a cost effective and broad spectrum germicide*
- *Effective against major mastitis causing pathogens*
- *Contains a 1.0% cosmetic-grade hydrogen peroxide which ensures stability and effectiveness for up to two years*

Exceptional cleaning and conditioning

- **Contains a 1.0% cosmetic-grade hydrogen peroxide** which ensures stability and effectiveness for up to two years.
- **Provides a fast and effective kill.** Hydrogen peroxide has a 28% greater oxidation rate than chlorine.
- **Contains cleaning surfactants** for efficient soil removal.
- **Creates a rich foam**, or can be used as a spray or dip.
- **Includes lactic acid**, which provides a secondary kill and mild exfoliation of rough teat ends.
- **pH balanced** to prevent irritation.
