

CHLORDINE

CHLORHEXIDINE-BASED PRE-POST DIP

Non-irritating, long-lasting protection

- **Fast-acting chlorhexidine** gluconate-based teat dip with a distinctive blue color.
- **Extremely effective** microbicide active against most gram-positive and gram-negative organisms, certain anaerobes, aerobes and yeasts.
- **Available in 0.5% and 1.0%** chlorhexidine concentrations.
- **Helps decrease intramammary infections** due to *Strep. agalactiae* and *Staph. aureus*.
- **Adheres well**, and stays active for up to 5-6 hours longer than other antimicrobial agents.
- **Glycerin emollient** for superior skin conditioning.
- **Contains Chlorhexidine, which is known to treat viruses** including herpes.

Chlordine 110
